

SharperDrills™

The Precision Drill Grinder Store

Patented

Portable Drill Sharpener

DGS 21

Drill Point Angle 90 to 140 Degree, Adjustable

DGS 25

Drill Point Angle 90 to 140 Degree, Adjustable

Precision collet holder system for concentric, accurate drill center points. Stable finishing quality and S-type web thinning with minimal stock removal.

Easy to re-grind even small diameter drills.

DGS 25 Range: 3mm to 26mm in drill diameter, or 0.11" to 1" in drill diameter

Solid all metal grinder design provides the platform to repeat quality results by removing only minimal material.

Portable and easy to use with functional and operator-friendly design features.

Simple and accurate re-sharpening of two flute spiral drills, from HSS to Cobalt and Solid Carbide.

A CBN grinding wheel is included and easily exchanged with the optional diamond plated grinding wheel.

Photo: DGS 25

Simple to Operate! Anyone can make a perfect point.

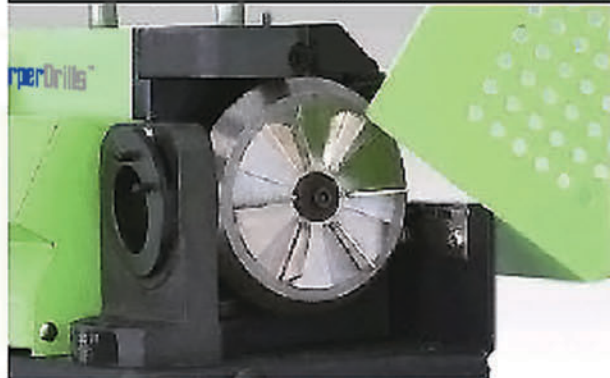

First: Grinding The Drill Point In One Step

Second: Grinding The Relief (Web Thinning)

The Grinding Wheel

Quiet running design with high quality CBN wheel (200 Grade for HSS) and optional SDC Diamod Wheel (200 Grade for Solid Carbide).

Integrated Collet Stock Shelf

For best drill concentricity, the perfect point is guaranteed by the collet clamps. Conveniently stored in the front rack of the grinder, collet sizes from #8 to #22 in 0.040" (1mm) steps are readily available. For the DGS 25 sharpener additional collets to support up to 1" drill diameters plus a grinding chuck adapter with collets from #3 to #7 are supplied for drill bit diameters from 3mm (2/32") to 7mm (0.32") in size.

Model	SharperDrills™ DGS 21	SharperDrills™ DGS 25
Drill Size Range	0.32" to 0.87" (8 mm to 22 mm)	3/32" to 1.0" (3 mm to 25.4 mm)
Drill Point Angle	90° to 140°	90° to 140°
Power Supply	120V, single phase, 60cycle (or optional 220-240V, single phase, 50 cycle)	
Motor Speed	Precision Motor Grinding Spindle running at 3,280 rpm	
Grinding Wheel (Standard)	CBN wheel #200 for HSS	CBN wheel #200 for HSS
Collets (Standard)	Set of steel collets, consisting of 15 each. (#8 to #22)	Set of ER32 steel collets, consisting of 19 each (#8 to #25.4), adapter with set of ER16 steel collets, 5 each (#3 to #7)
Grinder size	Length x Width x Height:: 430 x 204 x 223 mm (17" x 8" x 8 3/4"), approximately	
Weight	About 44lbs (20kg)	
Standard Accessories	Grinding chuck assembly for size range, set of collets ER32, allen wrenches (2 each), adjustment shim, power cord, operating manual in english.	Grinding chuck assembly for size range, grinding chuck adapter ER32/ER16, set of collets ER32, set of collets ER16, allen wrenches (2 Each), adjustment shim, power cord, operating manual in english
